Installed
with
confidence

* Onsite training is restricted to the metropolitan areas of Sydney, Melbourne, Perth and Brisbane and is subject to availability.

Geberit is committed to supporting the plumbers of Australia, with a dedicated team of experts on hand to help with any installation or technical issues. All just a phone call away.

To ensure the trade is well trained and confident when installing the world's leading range of concealed cisterns we've introduced the industry's leading training and support program to help make installation and service as simple as it was designed to be.
